

# 1000<sup>th</sup> MARATHON COACH:

## *A Milestone to Celebrate*

by Mary Barton

As if we didn't have enough to celebrate in November already—Marathon's NASCAR, Phoenix Rally, Prevost Car's Ultimate Rally, let alone Thanksgiving—Marathon's 1000th bus conversion, coach #1001, is scheduled for completion that month. This milestone coach will roll out of Marathon's doors the second week of November, to a fanfare of lights, champagne, and much celebration. A first in

the history of the bus conversion industry, this 1000th coach is slated to be the most exclusive coach built by Marathon to date. The 1000th coach will be built on a Prevost H3-45 bus shell with two slide-outs. The coach will feature a plethora of convenient flat screen and plasma television monitors, top-of-the-line surround sound audio/visual equipment, and dual satellite

receivers. A Crestron, remote control system, exterior ground LED lighting, massage units in the pilot and co-pilot seats, and full awnings on both sides of the coach will also be installed. The coach will be unparalleled in decorative style, innovation and luxury. Please join us for the exciting unveiling this fall! •
