Marathon Coach Florida Expansion

I hope all is well with you and your family.

I am extremely pleased to announce that after persevering through a lengthy zoning approval process, Marathon Coach Florida broke ground in March on its facility expansion project. Construction of the 10,000-square-foot addition is expected to take approximately 6 months, and we look forward to being "bigger and better" in our expanded space by the end of 2007.

Six service bays are being added to the rear of the existing bays. The customer service lounge will undergo a complete redesign, and many other upgrades will be done throughout the entire facility. Especially exciting is the conversion of the first two bays of the existing building into an enclosed, air-conditioned delivery/display space. We are confident that customers will enjoy this area when they take delivery of coaches at our Florida facility.

Outside the building, an access road will be paved from the new building section to Com-

“We invite you to visit Marathon Coach Florida!”

merce Drive at the rear of the property. Having two entrances/exits into the facility will greatly improve traffic flow. Ten new coach parking spaces with 50-amp hookups will be created along this access road to increase the facility’s coach parking capacity.

We invite you to visit Marathon Coach Florida during this project. Because the building addition is located at the rear of the facility, we will carry on service and sales operations as usual throughout the year. Marathon staff will take pleasure in showing you the exciting changes in progress.

Attentive, high-quality customer service is a priority for Marathon. We recognize that Marathon owners make a significant commitment when they purchase a coach, and they deserve the best service in the industry. Our investment in expanding the Florida facility is just one of the many steps that Marathon is taking to increase capacity and to ensure the high level of service that our team proudly provides. •
