## The Icing On the Cake

Remodeling is one method of changing the look and feel of your coach interior, but there's a much more inexpensive way to achieve a fresh and updated look: with accents. Small changes can often make a tremendous difference. Introducing splashes of color or adding a few coordinated and well-placed accessories is a great way to soften, liven up, or completely change the overall look, as well as add a residential and personal feel to a coach's interior.

In some cases, accessories are the only upgrade some clients request. Something as simple and inexpensive as switching out the lighting, adding a few rugs, some artwork, new bedding, and pillows can make a very neutral space feel brand new. What are you waiting for? Contact Marathon's professional interior design specialists today and let them help you create an aesthetic interior space that is uniquely you!
