Apple Products for Your Coach

Many of the newest Apple products can be connected to your coach's audio/video system. Here's a sample of what we can do.

Apple Universal Dock

The Apple Universal Dock serves as a convenient and elegant home base for charging, syncing, and more. Through the use of interchangeable inserts called Dock Adapters, it works with iPhone and all iPod models that have a dock connector and dock adapter. So even if you own more than one iPod or iPhone, you can keep just one Dock connected to your coach system, computer, stereo, or TV.

XtremeMac InCharge Duo

This compact, dual charger allows you to power up your iPod or iPhone with your iPad at the same time via AC power. The removable adapter quickly converts the rear dock to iPad or back iPhone and iPod compatibility.
