HANDY INFORMATION FOR YOUR STAY AT THE MARATHON COACH SERVICE DEPARTMENT

Blu-ray Disc Player

Blu-ray Disc is the name of the highest clarity optical disc format, which uses a blue-violet laser, hence the name Blu-ray. Despite the different type of lasers used, Blu-ray products are compatible with CDs and DVDs. The format was developed to enable recording, rewriting, and playback of high-definition video (HD), as well as storing large amounts of data. The format offers more than five times the storage capacity of traditional DVDs and can hold as much as 25GB on a single-layer disc and 50GB on a dual-layer disc. This extra capacity combined with the use of advanced video and audio codecs, offers consumers an unprecedented HD experience. Ready for the newest in high-definition video? Talk to our technicians about adding a Blu-ray Disc player to your video system.

Prices vary per installation.

We are happy to provide you with a quote.
