HANDY INFORMATION FOR YOUR STAY AT THE MARATHON COACH SERVICE DEPARTMENT

Protect your investment and enhance your driving experience with sheepskin seat covers

Sheepskin allows air to flow between you and your seat, creating a natural insulation effect that keeps you warm in the winter and cool in the summer. Plus, sitting on fleece supports the body, possibly even reducing pressure points, allowing for maximum comfort even on those longer drives.

Sheepskin is resilient, providing relatively worry free maintenance. Because sheepskin doesn't soak up stains, liquids have a tendency to sit on top for a period of time, providing you ample opportunity to clean the spill. In fact, if

you spill something such as coffee, the seats will typically wipe clean. Even dried stains rarely need more than a damp cloth.

These naturally hypoallergenic seat covers don't shed or loose wool while they keep you comfortable and protect your investment, shielding your leather or vinyl seats from harmful UV rays and more. If you're ready to experience the sheepskin difference, simply call us.
