# Hardwood Floor Installations

Marathon Coach works with a wide variety of the finest hardwood flooring materials to match the best wood to the perfect coach interior. When considering which flooring material to use, color and texture (such as hand scraped) are usually compared to the coach's laminate to create a tone-on-tone or contrasting look depending on what the client wants. Other details to consider include the hardness of the wood and its resistance to moisture. Harder woods tend to be more scratch resistant and some wood finishes have several coats that are designed to last for years.

One of the most popular and hardest flooring materials is bamboo. Bamboo is the fastest growing plant on earth, with a tensile strength comparable to steel. Despite being categorized as hardwood flooring, it is actually a grass and grows in specific climates across the globe. Made into bamboo flooring, it is beautiful, durable and sustainable. For these reasons, bamboo is rapidly becoming one of the most popular types of residential and commercial hardwood floors installed today. Please call to discuss adding hardwood flooring to your remodel project.

Country

Brazilian Cherry Nature

Bamboo Strand - Antique

Bamboo Strand - Natural

Many more hardwood flooring choices are available.
