HANDY INFORMATION FOR YOUR STAY AT THE MARATHON COACH SERVICE DEPARTMENT

Getting Control

iPhone, iPad, and other Smart Devices

Imagine enjoying an afternoon relaxing on your coach's recliner and answering a few emails on your iPad. With the emails answered it would be nice to watch that new movie you rented. But, instead of reaching for your remote you simply switch to your Marathon Coach app on your iPad and touch the theater button. The blinds go down, the lights dim, the TV comes on, and your movie spins up in the DVD player.

Controlling your coach's functions from a Smart Device like an iPad, iPhone, or Android phone is a standard feature on a new Marathon Coach. It is also an available upgrade on any older generation Marathon.

The cost of an upgrade depends on what features you want to control from your Smart Device, and if those features on

your coach are compatible. As an example, newer technology HVAC systems can be made to interact with a Smart Device like an iPad, whereas older systems must be controlled manually. To make an older HVAC system controllable from a Smart Device is possible, but may require a substantial amount of improvements to bring it up to date.

Audio video controls are more common and are the easiest set up. Blinds, lighting, door locks, HVAC, and other functions may or may not need additional upgrades to make them compatible depending on the technology level of each individual coach.

For an assessment on what you would like to control on your coach from your Smart Device, stop by or call one of Marathon's Service centers.

SERVICE DEPARTMENT

Excellence by Design

Smart Device Controlled Features

The features supported are dependant of the technology level of the individual coach.
